

The Kids' Area targeting elementary school children and under is set up in Exhibition Hall 7. We have improved the Kids' Area this year. We have crated a "Kids Play Area" where kids can play analog games, "Food Court" where nostalgic sweets are sold, and "NIKKEI Characters! Zone" featuring animations and toys for families. It's more fun than ever before. We have also set up familiar booths: "Touch & Try Booth" where latest game software can be experienced, a "Sales Corner" where game related goods for kids are available, and the "Event Stage" where enjoyable events are held. As well as a variety of stage shows held by the Kids' Area exhibitors, the organizer's event stage will also feature – "Crayon Shin-chan" & "TOTTOKO HAMUTARO."

\*The Kids' Area will be open on General Admission Days. [September 27 (Sat.) & 28 (Sun.)]
